

BRITISH TANKS ON MOVE

**Regiment Is Observed on Way
From Suez to Palestine**

CAIRO, Egypt, May 2 (AP)—A regiment of giant British tanks mounting heavy cannons is on its way from the Suez Canal zone to embattled Jerusalem, it was learned here today.

Comets—thirty-four-ton weapons—of the Fourth Royal Tank Regiment were seen rumbling in long convoys across the Sinai desert toward Palestine yesterday.

More than twenty of the monsters armed with 77-mm. cannon were counted. Supporting supply and communications vehicles formed additional impressive convoys.
